LTTE has support of the people — Nadarajah

A. Nadarajah (EPDP—Jaffna District) said: It is not known how the government is going to stop the war in the North. Government has no plans for this purpose. The LTTE cannot be expected to put an end to the war because the Tigers have benefitted from the war.

LTTE has the support of the people and the LTTE is on the winning side. The war only kills the ordinary people rather than Tigers.

A solution to the problem in the North involves the restoration of the rights of the Tamils. Governments have denied rights of the Tamils by not considering the population ratio when appointments are made. Development strategies are worked out for the North but they are never implemented. The system of cutoff marks only drive Tamil youths to the laps of the Tigers.
